

Fondazione Internazionale Balzan “Premio”

prot. n° 14848

December 2021

Sir / Madam,

In regard to the attached letter from the Chairman of the Balzan Foundation’s General Prize Committee, Professor Luciano Maiani, we would be grateful if you would kindly forward supporting statements for each candidate you deem worthy of an award. In order to be valid, the nominations must be supported by the following documents:

- a statement of reasons for the nomination (in English, German, French or Italian), including mention of particularly important publications;
- for candidates in the **social sciences** and the **humanities**, a bibliography, including the above-mentioned publications, citing publisher and publication year, and adding translations of original titles should there be works translated into other languages;
- a list of 10 to 20 of their most important publications (with full bibliographical citation) for candidates in the **sciences**;
- a curriculum vitae specifying present position, main academic activities, date and place of birth, nationality, residence and address;
- a recent photograph (high resolution, jpg by email to balzan@balzan.it) with indication of copyright if applicable.

Prizes may be awarded to individuals or to working teams who have produced results jointly. It is to be noted that more than one candidate may be nominated for each prize subject. Furthermore, they do not necessarily have to be part of the institution of the individual making the nomination, nor of the same nationality.

Personal applications will not be considered.

Nominations must reach the General Prize Committee by March 15, 2022.

All of the above documentation should be addressed to the

Chairman of the General Prize Committee
Professor Luciano Maiani
Attention: Secretariat of the International Balzan Foundation “Prize”
P.tta U. Giordano 4
